PROJECT

Title: Full stack CRUD APP (Individual project)

Platform: Reactjs, Nodejs, Mysql

Role: Every aspect of the project was done solely by me.

Description: A CRUD app is a software application that performs four fundamental operations on data: Create, Read, Update, and Delete.

Title: WEATHER APP (Individual project)

Platform: HTML, CSS, and JavaScript

Role: Every aspect of the project was done solely by me.

Description: In this project, we will be building a weather application. This application will show the temperature of a location. To fetch weather information we will need an API.
